

FOR IMMEDIATE RELEASE

Scalable Software Releases FREE MSI Packager

Scalable Provides FREE Standard Edition MSI Packager: WinINSTALL LE

HOUSTON and LONDON, August 4, 2008 — Scalable Software Limited, a leader in IT Asset Lifecycle Management solutions, is pleased to announce that WinINSTALL LE, the popular MSI packaging tool, is now offered free of charge. The product is available for immediate download at http://www.scalable.com/WinINSTALL_LE.aspx. Through the years WinINSTALL LE has helped thousands of IT administrators from organizations of all sizes package applications for deployment to desktops in the MSI file format.

WinINSTALL LE, which is a limited-featured version of WinINSTALL MSI Packager Professional Edition, the industry's most best selling software packaging solution, provides customers of Microsoft Systems Management Server (SMS) and AD Group Policy with a solution that automates the complex process of preparing and converting applications to the industry-standard MSI (Windows Installer) format for deployment across the enterprise. Over 500,000 administrators have utilized the LE Edition of WinINSTALL MSI Packager since its introduction.

For administrators that require advanced MSI features, Scalable has made it easy to upgrade to the MSI Packager Professional as well as several other compelling product families, [WinINSTALL](#) and [Survey](#) that address complete IT Asset Lifecycle Management.

"WinINSTALL has been the leader in the PC Lifecycle Management arena for many years," says Mark Cresswell, Scalable President and CEO. "Scalable Software has decided not to charge for WinINSTALL LE and will provide this valuable tool free to Systems Administrator's from all industries, public and private; every little helps in these difficult times", Cresswell adds.

"Administrators need a quick, reliable way to create MSI applications when using Group Policy as their software delivery mechanism. WinINSTALL LE provides the basics, and it's totally free." says Jeremy Moskowitz, Group Policy MVP and best-selling author and Windows Server expert who runs GPanswers.com.

About Scalable Software

Since 1999, Scalable Software has been a proven innovator in delivering cost-effective IT asset lifecycle management solutions. Scalable solutions help IT professionals manage the entire life cycle of IT assets from the moment it enters the organization until it is retired in a cost-effective manner. By focusing on the exact IT asset needs of an organization, Scalable solutions ensure capital is optimally deployed, overspending is reduced, profitability is improved and productivity greatly enhanced. Scalable Software solutions are supported through a network of partners with customers throughout North America, Europe and Asia.
